

PASTE 2023

SPONSORSHIP AND DISPLAY OPPORTUNITIES

APRIL 30 - MAY 3, 2023 | BANFF, ALBERTA, CANADA

BACKGROUND

In 1999, the Australian Centre for Geomechanics initiated a series of international conferences on paste, thickened and filtered tailings (PTFT). The University of Alberta hosted the inaugural conference and is pleased to now host the 25th Anniversary of the Paste Conference. Paste 2023 focuses on PTFT and reflects the developing maturity of de-watered tailings management.

Paste 2023 seeks to explore the considerations needed to raise mining industry leaders' awareness of how important tailings stewardship is with regards to safety, water, the environment, communities, and economics to long-term industry sustainability.

This conference represents a valuable opportunity for industry professionals, designers, practitioners, consultants, suppliers, and academics to discuss best practice, improved methods, and technology, all with an emphasis on safety, efficiency, and environmental impact. The conference will be held as a traditional in-person event in beautiful Banff, Alberta, Canada.

PROMOTION

The University of Alberta Geotechnical Centre is undertaking a niche marketing campaign to promote this conference to local and international professionals via:

- Internet marketing — promotion via the paste conferences website, ACG website and other mining event websites.
- Promotion of the event to almost 7,000 mining professionals worldwide.
- Promotion via social media including the dedicated paste conference LinkedIn page.
- Industry association including, The University of Alberta, The University of Western Australia, and The University of Melbourne.
- Direct email campaign — event specific flyers, registration brochures and targeted electronic mail.
- Media support and coverage from reputable industry journals, magazines, and newsletters.
- International and local exposure through the activities and support of key industry personnel.
- Regular communication to past ACG paste conference delegates.
- Promotion at selected ACG and international geotechnical engineering events.
