

Paste 2023 Conference Award Application form

Through the generous sponsorship from Agnico Eagle, the University of Alberta Geotechnical Centre is pleased to offer Conference Awards to assist students who require additional resources to participate in Paste 2023.

Full-time graduate students studying in the field of Paste, Thickened and Filtered Tailings are eligible to apply. The award will cover the registration fee and banquet ticket for the selected recipient. The selected recipient will be seated at the Banquet with representatives from Agnico Eagle. The Recipient will be selected on the quality of their response, need for financial assistance and recommendation from their supervisors. Equity, diversity and inclusion of individuals from underrepresented backgrounds in science and engineering will also be considered. You do not have to have an accepted paper or presentation to apply for this award.

The following Application Form should be completed in full and emailed to the Paste Organizing Committee via sally.petaske@ualberta.ca by **March 15, 2023**. Graduate students from underrepresented backgrounds in sciences and engineering are encouraged to email Sally in confidence explaining how their participation in the conference will increase equity, diversity and inclusion in no more than 150 words.

Section 1: Your details

Full name:	Contact email address:
University:	Degree Program/Student Status:
Country of residence:	In-person registration

Section 2: Award questions

Please give details of your current graduate research project (300 word limit).

Please comment on how attendance at the Conference will contribute to your future professional career development (300 word limit). (Note: provide details of why this specific Conference is important or relevant.)

Statement on why you are requesting financial assistance. Please mention other sources of funding that you have/are pursuing to participate in this conference (250 word limit).

Section 3: Declaration

If my application for the Paste 2023 Conference Award is successful, I agree to provide a report of approximately 350 words including images for inclusion on the ACG and UAlberta Geotechnical Centre websites and social media platforms for publicity purposes. This report will be delivered within two weeks of the Conference. I also agree to acknowledge my successful application for the award in any presentations made at the Conference.
